

**ICR HOMEOWNERS ASSOCIATION
MEETING
2004**

The ICR Homeowners Association met Sunday, March 21, 2004 in the Anasazi Air Force Hangar.

After a brief demonstration and discussion of the security camera recently installed, the Meeting was called to order at 2:20 PM by Archie Hanson, President. Present from the Board were Archie Hanson, Jane Dillard and Steve Glass. Property owners attending were Burdette/Sweezey, L. Desist, S. Glass, L. Hanson, M. Hanson, K. Kristin, S. & A. Lange, W. & S. Lowe, L. Renshaw and P. & J. Stone.

President Hanson explained the use and lease of the Hangar by Skip Lange and the possibilities of future uses of the structure by archaeological groups.

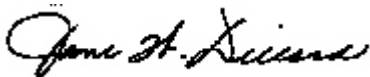

The financial status of the Association was reviewed with a breakdown of income and expenses. The majority of the dues goes into road maintenance: grading, snow removal, etc. The south end of Road 22.7 has been re-engineered and built up to eliminate major mud problems, all of this at considerable expense.

As soon as the knapweed is controlled, the BLM will begin fire mitigation on the Canyon of the Ancients National Monument.

Stephen Glass was introduced as the Resident Archaeologist. He will work with property owners on research design and data recovery methods in the event that owners want to excavate their sites.

A brief discussion on various topics followed. The Meeting was adjourned at 2:55 PM.

Respectfully submitted,

Jane W. Dillard, Secretary
ICR Homeowners Assoc.
